

Accessing Amazon WorkSpaces

1. An invitation will be sent to your UT Dallas email with a link to create a user profile.
2. Download the Mac or Windows Amazon WorkSpace [client application](#).
3. When you open the client for the first time, you will be prompted to input the registration code found in the invitation email.
4. Access and install the applications assigned to you by....

For instructions on how to get started using WorkSpaces, see Amazon's documentation: <https://docs.aws.amazon.com/workspaces/latest/userguide/workspaces-user-getting-started.html>
