

Research Subject Payments

Research Subject Payments

Research projects involving human subjects often offer a small payment to the research subjects for purposes of recruitment or encouragement for participation in the project.

The University of Texas at Dallas follows the following guideline, Research Subjects Payment, which outlines Research Subject's payments for grants, contracts, and sub-awards. This guideline follows the [UTD's Institutional Review Board \(IRB\)](#) and The University Texas at Dallas [UTDBP3036 - Policy on Payment of Research Subjects](#)

Please visit Research Compliance website for further information on [Human Subjects Research](#).
